## THE STATE OF THE ART ENTERPRISE SOLUTION FOR WORKFLOW MANAGEMENT IN HEALTHCARE

At G2 Speech, we strive to set the highest standards of excellence and professionalism in digital dictation, speech recognition and workflow management technology. We understand the challenges that the healthcare industry is currently facing and we constantly develop and evolve our products around your needs.

SpeechReport is our latest technological innovation. It is easy to deploy, with a very low network footprint and has a whole host of benefits. With this solution we can help streamline your clinical correspondence and document management. As experts in our field, we understand your needs and have designed this software around you.

- Join 25,000+ users who are already benefitting from our technology
- Flawless dictation & transcription
- Easy document management
- Speeds up document turnaround time
- Optimise administration tasks without effort
- Proven ROI
- Compatible with Olympus & Philips audio & transcription devices
- Supports HL7 standards
- ITK compliant
- ISO 27001 certified.

### FULLY AUTOMATED WORKFLOW MANAGEMENT

SpeechReport fully automates the workflow process for document creation. You can record, edit, review, sign off, print, archive and export documents to various programs including MS Word, all within this single platform. The software is extremely adaptable. Within SpeechReport Administration, workflow can be tailored to suit the needs of physicians and transcriptionists.

### ORGANISE YOUR WORK WITH SPEECHREPORT CLIENT

SpeechReport has multiple ways of supporting you in creating, editing and managing your dictations and patient information. The unique Clinic Worklist allows you to organise your work throughout the day. Our product offers a digital overview of your appointments and tasks. If you'd like to dictate a letter for a GP or another physician, you can do this directly from the Clinic Worklist. A HL7 integration with your Patient Administration System (PAS) guarantees that the correct patient data is immediately at hand. Dictations can also be made on the fly and on the go. Our mobility suite allows you to dictate anywhere, anytime. After a dictation is made, the physician can automatically send the dictation for transcription, whether it was made on a smartphone or created on a desktop.

## TRANSCRIPTION AND SIGN OFF MADE EASY

Transcriptionists can easily open, edit and finalise reports within SpeechReport. Worklists are displayed to help with prioritising and time management. High priority items can easily be identified within the worklist. After editing a dictation, the transcriptionist can either forward the document, send it for sign-off, review or even export it to various programs including MS Word. If the document requires a specific layout or template, the transcriptionist can easily apply the correct one.

## IMPORT AUDIO FILES

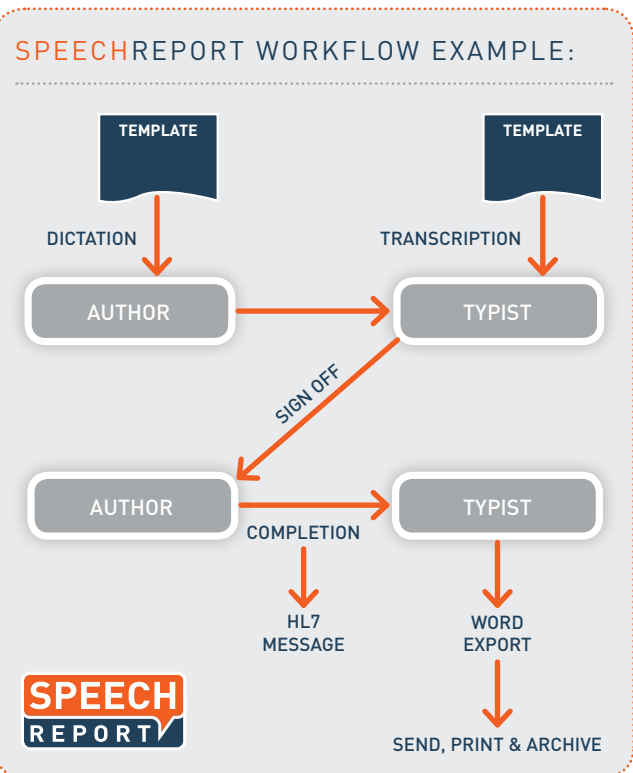

Dictations which are made on a Digital Pocket Memo device can easily be imported into the system.

## HL7 SUPPORT AND INTEGRATIONS

SpeechReport has been designed to allow you to connect easily with multiple IT systems. We support HL7 integrations to allow you to communicate easily with other PAS or Electronic Patient Records (EPR).

We get to the heart of reporting with outstanding dictation products and workflow management. Every single day more than 25,000 users in the healthcare industry are working with G2 Speech and are benefitting from our technology, by fully automating the workflow process for document creation, editing and sign off. Join them and digitise your information to help deliver a paperless NHS!

## ABOUT G2 SPEECH

G2 Speech was founded in 1998. Over the 15 years we have been established, we have polished and perfected the art of providing digital dictation, speech recognition and workflow management solutions that fit the needs of our customers. We successfully provide our product in the UK, Ireland, Belgium and Holland. Within the UK we currently deliver solutions to over 35 major NHS Trusts.

Let us help you reduce costs and time pressures and increase your productivity. Contact a member of our team.
