## Speakers

### **STEPHEN DOCHERTY, Industry Executive, Health - Microsoft**

Stephen Docherty joined Microsoft in June 2019 as Industry Executive for health, having spent the previous 4.5 years as Chief Information Officer for South London and Maudsley NHS FT. Whilst at SLaM, Stephen and his team became the first NHS Trust to fully adopt Office 365 and were the first of two UK organisations to develop cloud services in Microsoft Azure, as part of delivering SLaM's digital strategy and enabling a digital workforce. In 2017, South London & Maudsley was selected by NHSE to become London's global digital exemplar (GDE) for mental health services.

### **PAUL MOORE, Digital Programme Lead for Transformation - the Northern Care Alliance**

Paul has worked in IMT for the NHS for over 15 years in roles spanning the breadth of the North West of England across the spectrum of health sectors including large Acutes, the Strategic Health Authority and the Greater Manchester Health and Social Care Partnership. Paul has worked in a number of senior roles leading project management teams within IMT and has a number of years of deployment experience including both local and national developed solutions.

### **NICOLA RODWELL, Project Support and Training Officer - Oxleas NHS Foundation Trust**

Nicola Rodwell has worked at Oxleas NHS Foundation Trust as a Project Support and Training Officer for 4 years. Whilst there she has been charged with analysing and reporting on clinical corresponding data within SpeechReport (the G2 Speech enabled document solution) using the reporting tool G2 Analytics. She is looking forward to sharing with you some tips on how to get the most out of your data using G2 Analytics.
