

Vacancy: Manager Product Office – Medical market

Office location: Headquarters Nuenen, NL

JOB DESCRIPTION

Do you have a passion for efficiency through IT solutions, with a detail-oriented way of working? Do you have a willingness to interact with stakeholders at all levels, through various channels such as face to face, telephone, email?

In the role of Manager Product Office you will be responsible for the Product Office Team. You are a team manager and you have significant relevant experience in product management in software related products. You can coach your team members in their job and help them on a senior level.

You will work closely with the Management Team, Service Team, Project Management, as well as our customer base to deliver high quality products to increase efficiency, reduce costs, and improve patient care. You have direct customer contact on a senior level for our most important and most valuable customers in the NHS and HSE and in the Benelux.

You are able to build and maintain a strong partner network, to integrate our products and expand our markets. You have a high commercial awareness and you bring a good balance to the team, working together with the Sales and Account Management Team.

The role involves the following duties

The purpose of the role is to proactively manage the team and to deliver products to our organisation and our markets, and to build a strong partner network.

- Manage the team of product managers and product owners
- Motivate and coach the people in your team and enable them to grow in their role
- Keep evolving in your role and the role of your team within the organisation, find best practices, new techniques and methodologies to improve the performance of the team
- Overarching view of the products and services and intervene in time when necessary to protect the interests of our customers and our organisation
- Work closely together with the Sales Team, Service Team, Project Management Team to eventually deliver the best viable solution to the customer.

ESSENTIAL SKILLS

- Team and people management
- Stakeholder management
- Representing our customers interests
- Change management
- Product management
- Customer facing with excellent communication skills
- Strong leadership skills
- Commercial skills to expand existing markets
- Build and extend existing partner network.

DESIRABLE SKILLS

- Previous experience gained within **the medical sector** would be highly advantageous
- Previous experience with digital dictation and speech recognition technologies.

ESSENTIAL QUALIFICATIONS/EXPERIENCE

- Bachelor's or master's degree
- Product management methodologies
- Agile development methodologies
- Experience of working in a multi-stakeholder environment
- Experience in product management of complex software products
- Full EU driving licence.

The role will be office based, with travel to other company offices and customer sites, as and when needed. Your office location is headquarters Nuenen, the Netherlands.

Must have no issues to fly, as travel across Europe (UK, Ireland, Benelux mainly) is required.
